

M PACKER

M Packers are AGE's sensible alternative to the old K-rubber packers used for sealing telescope screen into casing.

Whereas K-rubber only provides 2 sealing fingers an M-Packer provides a multitude of equivalent seals over a continuous length between 1000mm to 500mm.

Moreover, while K-rubbers are at best glued and secured with band-it straps, the M-Packer is vulcanized to the riser pipe for 100% bonding security.

With its multiple sealing strips the AGE M-Packer is ideal for sealing telescopic screen into casing, particularly at greater depths.

STANDARD SIZES AND TYPES AVAILABLE IN STAINLESS STEEL

RISER PIPE	BORE CASING
2 1/2" SHED 40 x	4"
3" SHED 40 x	5"
4" SHED 40 x	6"
5" SHED 40 x	6"
6" SHED 40 x	8"
6" SHED 40 x	10"
8" SHED 40 x	10"
8" SHED 40 x	12"
10" SHED 40 x	12"
10" SHED 40 x	14"
12" SHED 40 x	16"

* OTHER SIZES AVAILABLE ON REQUEST

water . oil . gas . mining . geotechnical
